SUMMARY

Senior AI Product Manager with 10+ years of experience driving AI-powered digital products, social commerce platforms, and machine learning solutions across fintech and technology sectors. Expertise in Product Strategy, Generative AI, Product Discovery, Roadmap Ownership, and Growth Optimization. Delivered a WhatsApp-based social commerce platform achieving 5%+ conversion rates, improved customer adoption by 14%, and increased annotation efficiency by 40%. Seeking to lead scalable AI and GenAI product initiatives that accelerate business growth and customer value.

EXPERIENCE

Altimetrik (Client: Blackhawk Networks)

Lead Product Manager

Bangalore, India
Dec 2023 – Present

- Launched a WhatsApp-based social commerce platform in the UK and Brazil and TikTok integration in US, introducing a new digital revenue channel and achieving over **5%** conversion rates.
- Designed GenAI accelerators using LLMs, enhancing product experimentation speed and decision-making efficiency across finance and business operations.
- Improved customer adoption by **14%** through data-driven user journey optimization and structured experimentation across key product funnels.
- Developed AI-powered conversational commerce experiences on WhatsApp, integrating automated flows and real-time analytics for enhanced personalization.
- Led the product strategy and delivery for Starbucks Japan digital initiatives, aligning cross-functional teams to achieve strategic business objectives.
- Defined OKRs and KPI frameworks to measure the impact of product launches, ensuring alignment with business goals and driving measurable outcomes.

HobSpace

Associate Product Manager

Bangalore, India
Nov 2021 – Jun 2023

- Redesigned workflows, boosting team productivity by **25%** across Trainer Platform and CRM.
- Implemented internal tooling and analytics dashboards, achieving a **50%** improvement in operational efficiency.
- Conducted market research and user interviews to validate and prioritize roadmap investments.
- Led the development of a unified platform, enhancing operational visibility and customer management.
- Aligned cross-functional teams to deliver scalable solutions, supporting business growth and superior customer experience.

Infilect Technologies

Product Manager

Bangalore, India
Sep 2020 – Oct 2021

- Improved annotation efficiency by **40%**, significantly reducing model training time and operational costs.

Micelio Mobility

Business Analyst → Product Owner

Bangalore, India
May 2019 – Sep 2020

- Reduced HR operational effort by **60%** through the design and launch of automated rider hiring and payout systems.
- Improved operational throughput by **40%** by redesigning processes and automating core logistics workflows.
- Built and scaled the technology team from 0 to 8, establishing delivery processes and engineering execution standards.

Avail Finance & BigBasket

Quality Engineering (Early Career)

Bangalore, India
Oct 2015 – May 2019

- Partnered with cross-functional teams to deliver high-quality releases, improving customer satisfaction score.
- Implemented rigorous testing protocols, reducing post-release defects and enhancing platform stability.
